

Antoine JASNAULT

SUPPLY CHAIN & PROCUREMENT MANAGER

Sourcing · Inventory · Landed Cost · Automation — Biotech & Life Sciences

Av. Druey 19, 1018 Lausanne | +41 78 734 69 93 | a_jasnault@hotmail.com | linkedin.com/in/antoine-jasnault

PROFILE

Supply chain and procurement professional with 15+ years in pharma and biotech — comfortable in technical, science-led environments — who also builds. I have run a business end-to-end as a founder (sourcing, supplier negotiation, purchasing, inventory and P&L, all hands-on) and I recently built and deployed a full warehouse-management system from scratch, using Python, no-code and Claude Code, to automate ordering, tracking and reconciliation. I think in cost and margin, I am obsessive about lead times, expiry dates and MOQs, and I know cold-chain, customs and landed cost into Switzerland. Ready to own a supply chain from zero and grow it with the science.

CORE COMPETENCIES

Procurement & Cost

- End-to-end procurement: sourcing, POs, receiving, vendor onboarding
- Supplier negotiation & relationship management
- Second-sourcing, supplier qualification & de-risking
- Category cost-out, margin & COGS focus
- Landed cost: customs, duties, VAT, cold-chain import (CH / EU)

Supply Chain & Automation

- Inventory policy: reorder points, safety stock, expiry control
- Demand / supply planning & capacity scale-up modelling
- Cold-chain & temperature-controlled materials
- ERP / WMS, data & process automation (Python, Claude Code, APIs)
- Building & scaling operations from the ground up

PROFESSIONAL EXPERIENCE

2025 – Today

Warehouse & Distribution Supervisor

Merck, Aubonne · cGMP biotech

- Built and deployed an end-to-end Warehouse Management System from scratch — requirements to production — using Python, no-code and AI tooling (Claude Code), automating receiving, tracking and reconciliation
- Own goods receipt, inventory accuracy, lot traceability and real-time transactions in a GMP environment
- Drive continuous improvement and remove bottlenecks through daily floor presence

Key results: 0 late shipment and 0 human-error deviation over 6 months — live WMS replacing manual portal / spreadsheet work (warehouse-mgmt-sys.lovable.app)

2017 – 2024

Founder & Operations Manager

Le Grenier – Coopérative de la Brouette, Lausanne

- Founded and ran the business end-to-end — the sole owner of sourcing, supplier negotiation, purchasing, inventory and P&L, entirely hands-on
- Selected and negotiated with suppliers and built purchasing, receiving and distribution processes from zero
- Managed inventory of perishable goods — reorder points, freshness / expiry control and MOQs, keeping waste minimal

Key results: CHF 700K annual turnover (2023) — institutional clients: Ville de Lausanne, Royal Savoy, Fondation Bois-Gentil

2015 – 2017	Global Supply Planner Baxalta, Neuchâtel · cGMP biotech – Modelled demand, capacity and supply across five sites for temperature-sensitive biologics; built the multi-site production schedule – Led the S&OP implementation across five sites — a cross-functional scale-up of planning discipline Key results: S&OP process designed and deployed on the Neuchâtel site
2012 – 2013	Supply Chain Manager France Abbott, Paris · pharma – Ran inventory policy and supplier follow-up; managed a 30-person department – Led portfolio transfers (AbbVie set-up, Hospira 500 SKU) and designed a new distribution network across pharmacies, hospitals, wholesalers and 3PLs Key results: reduced write-offs by 20% (EUR 30K) — direct margin protection
2008 – 2012	Filling Planning & Inventory Manager GlaxoSmithKline Vaccines, Brussels · cGMP biotech – Managed a GBP 1bn cold-chain vaccine inventory — reorder logic, cycle counts and write-off control; ERP super-user and trainer – Planned 200 items across 8 brands — demand management and tender phasing Key results: 7% growth on Infanrix Hexa with no stock-out, enabled by VMI
2006 – 2008	Supply Chain Coordinator Sanofi-Aventis, Cyprus / Malta / Paris · pharma – Ran the distribution tender for the Cyprus & Malta affiliates — international logistics, customs and landed cost – Sales forecasting (300 SKU) and budget / Long-Range Plan exercises Key results: merged the distribution networks of the Sanofi and Aventis portfolios
2014 – 2015	Supply Chain Executive Philip Morris International, Neuchâtel – Short- and mid-term planning and product lifecycle management (UK & Baltics markets)

EDUCATION & CERTIFICATIONS

2005	MSc, Supply Chain Management — ISLI, Bordeaux	2014	Green Belt, Lean Six Sigma — EuroSymbiose, France
2004	BSc, International Trade (major: Logistics) — IPAG, Paris	2025	MOOC, Elements of AI — University of Helsinki
